

Packaging R&D

Position on PPWR Declaration of Conformity for Packaged Products

June 2026

Subject: Regulation (EU) 2025/40 – PPWR Declaration of Conformity (DoC) for Packaged Products

Regulation (EU) 2025/40 (PPWR) introduces new requirements for packaging placed on the EU market, with general application from 12 August 2026 and certain provisions applying from later dates.

We are actively preparing for these requirements and working with our packaging suppliers to collect and assess the information needed to support conformity.

Formal PPWR DoC will be issued once the applicable conformity assessments and supporting documentation are complete. Based on current planning, we expect this to be in place in line with the applicable deadline.

We remain committed to supporting customers with accurate and reliable compliance information as implementation progresses.
